

NDA/CDS/AFCAT

Passage Arrangement (S1-S6)

Day 1

THE TUTOR'S ACADEMY

Question 1

S1: Climate change poses significant challenges to global agriculture.

P: Rising temperatures are reducing crop yields in many regions.

Q: The need for sustainable agricultural practices has become urgent.

R: Erratic weather patterns disrupt planting and harvesting cycles.

S: Moreover, water scarcity is becoming a critical issue for farmers.

S6: Policymakers must prioritize adaptation strategies for food security.

Options

(a) PRSQ

(b) PQRS

(c) RPSQ

(d) RSQP

Question 2

S1: India's digital economy is growing at an unprecedented rate.

P: This growth has led to increased financial inclusion in rural areas.

Q: Mobile payments have become the backbone of small businesses.

R: Startups are leveraging technology to bridge service gaps.

S: However, concerns about data privacy remain a significant challenge.

S6: Addressing these concerns is essential to sustaining this momentum.

Options

(a) QRSP

(b) PQRS

(c) QPRS

(d) RQPS

Question 3

S1: India's foreign policy has seen a strategic shift in recent years.

P: Relations with neighboring countries have improved through regional summits.

Q: The focus has shifted toward economic partnerships.

R: Engagement with multilateral organizations has intensified.

S: Defense cooperation with key allies has also strengthened.

S6: These efforts are aimed at securing India's global interests.

Options

(a) QPRS

(b) PRSQ

(c) QSRP

(d) PQRS

Question 4

S1: Urbanization in India is creating both opportunities and challenges.

P: Affordable housing remains a critical issue.

Q: Smart city initiatives are addressing infrastructural gaps.

R: Migration to cities continues to rise due to better job prospects.

S: However, unplanned growth is straining civic amenities.

S6: A balanced approach is needed to ensure sustainable development.

Options

(a) RPSQ

(b) PQSR

(c) RQPS

(d) QPSR

Question 5

S1: Renewable energy is vital for combating climate change.

P: India is investing heavily in solar and wind energy projects.

Q: Global collaboration is necessary to share technology and resources.

R: Transitioning to green energy requires significant funding.

S: Policymakers are focusing on reducing fossil fuel dependency.

S6: These efforts will help achieve long-term sustainability goals.

Options

(a) PRQS

(b) PQRS

(c) PSRQ

(d) RPSQ

Question 6

S1: The global effort to combat antimicrobial resistance is gaining momentum.

P: Overuse of antibiotics in humans and animals is a significant contributor.

Q: Governments are implementing stricter regulations on prescription drugs.

R: Awareness campaigns are educating the public on the risks involved.

S: Research into alternative treatments is being prioritized.

S6: Collaborative global action is essential to tackle this growing crisis.

Options

(a) PRSQ

(b) PQSR

(c) RSPQ

(d) QPRS

Question 7

S1: India is witnessing a significant transformation in its healthcare sector.

P: The Ayushman Bharat scheme is making healthcare accessible to millions.

Q: However, challenges like infrastructure gaps persist.

R: Telemedicine has emerged as a key solution for remote areas.

S: Private sector partnerships are playing a critical role.

S6: Bridging these gaps is crucial for universal health coverage.

Options

(a) PRSQ

(b) PSRQ

(c) QSPR

(d) PQRS

Question 8

S1: India's education system is undergoing significant reforms.

P: Skill-based training is being integrated into school curricula.

Q: The emphasis is on holistic learning beyond traditional academics.

R: New policies aim to bridge the gap between education and employability.

S: The National Education Policy (NEP) 2020 is a landmark initiative.

S6: These efforts are expected to create a future-ready workforce.

Options

(a) SQPR

(b) QSPR

(c) PSRQ

(d) RPSQ

Question 9

S1: India's manufacturing sector is gaining momentum under the "Make in India" initiative.

P: Several sectors, including electronics, are seeing increased investments.

Q: Incentives are being offered to promote domestic production.

R: Infrastructure development is crucial for supporting this growth.

S: Challenges like regulatory hurdles need to be addressed.

S6: Sustained efforts will help India become a global manufacturing hub.

Options

(a) QPRS

(b) PQRS

(c) PSRQ

(d) RSPQ

Question 10

S1: India's tourism industry is recovering post-pandemic.

P: Domestic tourism is driving initial growth.

Q: However, international travel restrictions remain a barrier.

R: Innovative campaigns are promoting lesser-known destinations.

S: The government is focusing on sustainable tourism practices.

S6: These steps are expected to rejuvenate the industry.

Options

(a) PQRS

(b) PSRQ

(c) PRSQ

(d) RSPQ

Question 11

S1: Tackling air pollution is a priority for urban India.

P: Vehicle emissions are a major contributor to deteriorating air quality.

Q: Cities are implementing measures like odd-even schemes.

R: Public transport networks are being expanded to reduce dependency on private vehicles.

S: Green technologies, such as electric vehicles, are gaining traction.

S6: These initiatives aim to improve urban living conditions.

Options

(a) PQSR

(b) PRSQ

(c) RSPQ

(d) QPRS

Question 12

S1: The importance of cybersecurity has grown in today's digital age.

P: Cyberattacks on critical infrastructure are on the rise.

Q: Businesses are investing in advanced security solutions.

R: Governments are enacting stricter data protection laws.

S: Awareness programs are educating individuals on safe practices.

S6: A collective approach is needed to mitigate cyber threats.

Options

(a) PQRS

(b) PRSQ

(c) PSQR

(d) QSPR

Question 13

S1: Global trade dynamics are shifting in the wake of geopolitical tensions.

P: Nations are exploring alternative supply chains.

Q: Trade agreements are being re-evaluated for mutual benefits.

R: The focus is on reducing dependency on a single country.

S: Regional partnerships are becoming more prominent.

S6: These trends indicate a move toward a multipolar trading system.

Options:

(a) PQRS

(b) PSRQ

(c) RQSP

(d) QPRS

Question 14

S1: Sustainable urban planning is critical for India's future.

P: Green buildings are being promoted for energy efficiency.

Q: Public spaces are being designed to encourage community interaction.

R: Smart technologies are being integrated into urban infrastructure.

S: Waste management systems are being overhauled.

S6: These efforts aim to create livable and resilient cities.

Options

(a) PRSQ

(b) PQRS

(c) PSQR

(d) RQPS

Question 15

S1: India's food security depends on sustainable agricultural practices.

P: Organic farming is gaining traction among farmers.

Q: Crop diversification is reducing dependence on single crops.

R: Policies are incentivizing environmentally friendly practices.

S: Efforts are being made to improve soil health and irrigation systems.

S6: These measures are essential for long-term food security.

Options

(a) PQRS

(b) PRSQ

(c) QPSR

(d) QSPR

ANSWERS

1. (a) PRSQ
2. (c) QPRS
3. (d) PQRS
4. (a) RPSQ
5. (c) PSRQ
6. (a) PRSQ
7. (b) PSRQ
8. (a) SQPR
9. (b) PQRS
10. (c) PRSQ
11. (a) PQSR
12. (b) PRSQ
13. (a) PQRS
14. (b) PQRS
15. (c) QPSR
