

NDA/CDS/AFCAT

Passage Arrangement (S1-S6)

Day 2

THE TUTOR'S ACADEMY

Question 1

S1: The ongoing conflict in the Middle East has brought renewed attention to the importance of diplomacy.

P: This underscores the role of international organizations in conflict resolution.

Q: Diplomatic interventions aim to foster dialogue between warring factions.

R: However, achieving consensus among conflicting parties remains a challenge.

S: A peaceful resolution often depends on sustained multilateral efforts.

S6: Hence, the success of diplomacy often hinges on the commitment of global powers.

(a) QSPR

(b) PQRS

(c) QRPS

(d) QPRS

Question 2

S1: India is witnessing a growing urbanization trend.

P: This requires massive investments in housing and infrastructure.

Q: However, unplanned urbanization has led to challenges like congestion and pollution.

R: Governments are focusing on smart city initiatives to address these issues.

S: Rapid migration to cities is the primary driver behind this trend.

S6: A holistic approach is essential for sustainable urban development.

(a) SRQP

(b) QSPR

(c) SPRQ

(d) SRPQ

Question 3

S1: Climate change is one of the most pressing global challenges today.

P: This has resulted in global temperature rises and melting glaciers.

Q: Human activities, particularly industrial emissions, are the leading cause.

R: These phenomena contribute to rising sea levels and extreme weather events.

S: Greenhouse gases trap heat in the atmosphere.

S6: Mitigating these impacts requires collective global action.

(a) SQPR

(b) QSPR

(c) QRSP

(d) PQRS

Question 4

S1: India's foreign policy has undergone significant evolution.

P: These changes reflect the country's ambition to become a global power.

Q: A focus on regional partnerships has emerged in recent years.

R: Economic diplomacy has taken precedence over ideological alignments.

S: Traditional non-alignment has given way to strategic alignments.

S6: This pragmatic approach has enhanced India's global standing.

(a) QSPR

(b) SPRQ

(c) SQPR

(d) PRSQ

Question 5

S1: Renewable energy has become a critical part of India's energy strategy.

P: India aims to achieve 50% of its energy from renewable sources by 2030.

Q: Solar and wind energy form the backbone of this transition.

R: This aligns with India's commitment under the Paris Agreement.

S: Significant investments are being made in renewable energy infrastructure.

S6: These efforts are crucial for reducing the nation's carbon footprint.

(a) QSPR

(b) PQRS

(c) QPSR

(d) PRSQ

Question 6

S1: Water scarcity is a growing concern across the globe.

P: It impacts agriculture, industry, and domestic consumption.

Q: Many regions are now experiencing severe droughts.

R: Efficient water management systems are urgently needed.

S: This is largely due to over-extraction and climate change.

S6: Without action, water shortages will become more widespread.

(a) QSPR

(b) SQPR

(c) QSRP

(d) PSQR

Question 7

S1: The digital economy is transforming traditional business models.

P: Digital payments have seen exponential growth.

Q: Startups are leveraging technology to disrupt established industries.

R: However, cybersecurity risks have also increased.

S: E-commerce and fintech are driving this change.

S6: A balanced approach is needed to ensure growth and security.

(a) SQPR

(b) QSPR

(c) PSQR

(d) SRPQ

Question 8

S1: Education reform is a priority for many developing countries.

P: Teacher training programs are being revamped to improve outcomes.

Q: Access to quality education remains a major challenge.

R: Technology is being integrated into classrooms to enhance learning.

S: Policies are being designed to reduce dropout rates.

S6: Comprehensive reform is key to achieving educational equity.

(a) QRPS

(b) QSPR

(c) PSRQ

(d) PQRS

Question 9

S1: India's space program has made remarkable strides.

P: ISRO's Chandrayaan missions have garnered global attention.

Q: Indigenous satellite technology has advanced significantly.

R: This has positioned India as a leader in affordable space exploration.

S: Collaborative international projects have also been undertaken.

S6: The space sector holds immense potential for future growth.

(a) PQRS

(b) QPRS

(c) PSQR

(d) QRSP

Question 10

S1: The tourism sector is a significant contributor to the global economy.

P: Sustainable tourism practices are gaining traction.

Q: However, overtourism has led to environmental degradation in some areas.

R: Governments are implementing policies to regulate tourist activities.

S: Eco-tourism initiatives are being promoted worldwide.

S6: Balancing growth with sustainability is the key challenge.

(a) QPSR

(b) PSRQ

(c) QSPR

(d) PRSQ

Question 11

S1: India's agricultural sector faces multiple challenges.

P: Small and marginal farmers are the worst affected.

Q: Climate-resilient farming techniques are being promoted.

R: Low productivity and unpredictable weather are major concerns.

S: Government subsidies aim to support struggling farmers.

S6: Holistic reforms are necessary to ensure agricultural sustainability.

(a) PRSQ

(b) RPSQ

(c) RQPS

(d) QPSR

Question 12

S1: Public health systems worldwide are under strain.

P: Health infrastructure is inadequate in many developing countries.

Q: This has been exacerbated by the COVID-19 pandemic.

R: Governments are increasing investments in healthcare.

S: Universal healthcare access remains an unmet goal.

S6: Strengthening public health systems is imperative for resilience.

(a) QSPR

(b) PQSR

(c) QPSR

(d) PSRQ

Question 13

S1: Digital literacy is becoming a necessity in today's world.

P: It is crucial for accessing government services and job opportunities.

Q: Many rural areas still lack basic digital infrastructure.

R: Training programs are being rolled out to bridge this gap.

S: The digital divide remains a significant challenge.

S6: Collaborative efforts are needed to achieve universal digital literacy.

(a) QSPR

(b) SQRP

(c) PSRQ

(d) QSRP

Question 14

S1: Renewable energy adoption faces several barriers.

P: Policy support and incentives can address these barriers.

Q: High initial costs deter many potential adopters.

R: Awareness campaigns are critical for public acceptance.

S: Technical challenges also limit widespread adoption.

S6: Overcoming these barriers is essential for a green energy transition.

(a) QSPR

(b) QPSR

(c) SQRP

(d) PSRQ

Question 15

S1: Wildlife conservation is a global concern.

P: Poaching and habitat destruction are the primary threats.

Q: Protected areas and wildlife corridors are being established.

R: Community participation is vital for conservation success.

S: Stricter enforcement of anti-poaching laws is needed.

S6: A multi-faceted approach is necessary to save endangered species.

(a) PRSQ

(b) PSRQ

(c) PQRS

(d) QSPR

ANSWERS

1. (d) QPRS

2. (a) SRQP

3. (b) QSPR

4. (c) SQPR

5. (c) QPSR

6. (a) QSPR

7. (d) SRPQ

8. (b) QSPR

9. (b) QPRS

10. (c) QSPR

11. (b) RPSQ

12. (c) QPSR

13. (d) QSRP

14. (a) QSPR

15. (b) PSRQ
